## Telehandler Exchange

- Preventative Tire Maintenance Group, Inc. (PTMGroup) offers a Telehandler Exchange Program for Rental Service companies with large fleets of telehandlers.
- **How this program works:**
  - » PTMGroup Telehandler Exchange Program is a very simple and cost effective solution to your new tire needs.
  - » PTMGroup exchange program provides for near zero down time to keep that valuable equipment up and operating. Machine maximum availability up time means increased profits to your bottom line!
  - » Order a complete set of 4 exchange wheel/tire assemblies.
  - » PTMGroup will ship these new wheel/tire assemblies to you within 48 hours.
  - » Once you receive them, and get the assemblies mounted to your machine the customer will ship their old wheel/tire assemblies back to PTMGroup.
  - » PTMGroup will take your old wheel/tire assemblies and remove the tire and the foam.
  - » The wheel will be inspected and used in a future set of exchange outs for the next customer.
  - » PTMGroup will then recycle both the tire and the foam fill.
- PTMGroup expertise in the manufacturing of foam filled tires are designed to give a superior footprint and a stable ride.
- Offering a variety of 12 and 14 ply tires from most major tire manufactures offer a more durable side wall and are less susceptible to damage from rough terrain.
- Tire Sizes available range from 13.00-24, 14.00-24, 17.5-25 and 15.5-25.

## Telehandler Exchange Program
